# TACHYON LIVING PRODUCTS

## WHAT IS TACHYON AND WHY DO WE NEED IT?

Tachyons are sub-atomic particles that travel faster than light, infusing physical matter with light. Tachyon particles produce multiple positive effects when present in the human energy field or on the body. Many of our customers have reported that healing takes place 2-3 times faster, along with having a noticeable increase in pain reduction.

EMF is a harmful radiation to the human body and bio energy field. Tachyon Living Products help to balance the harmful EMF rays (electromagnetic frequencies) which are at an all time high, engulfing us. This makes it difficult for the human body to heal and have energy. Up to 40% + of our life force goes into fighting EMF leaving us only 60% of our life force energy to run our bodies.

## Why do we need TACHYON ?

Cell phones, computer screens, appliances, satellites, TVs, routers, etc., all contain substantial amounts of harmful EMF, which can cause serious unpleasant physical, mental, spiritual and emotional effects to the human body and aura field.

Some of these effects can be:

- exhaustion
- confusion
- distraction
- brain fog
- ill health
- concentration issues
- digestion issues
- dizziness
- heart palpitations
- redness
- tingling
- burning sensations
- tumors or cancer

Tachyon Living Products assist your body to return to the zero point, where nature intended it to be, creating a sense of peace and allowing your body to run at peak performance. Tachyon Living's tachyon is unique in that it incorporates Source Love energy within it as a powerful lifter of light and truth.
